BRANDSTAMP

LOGO DESIGN + HEAT PRESSING

Now Offered as a Private Class!

Since the start of the new year, CHACC has been very active in assisting local entrepreneurs with building a strong visual presence with their brand. Businesses like Boss Bae and Mona Delano, have used BRANDSTAMP to expand and bring their visions to light.

Soufside Creative returns with **BRAND STAMP**, which challenges ARTrepreneuers to invest a full day in their brands and businesses. In the workshop you learn how to brand yourself through promotional gear:

- *Make brand logo using Adobe illustrator
- *Operate Expert 24 cutter + Cricut Silhouette Cameo
- *Heat press to apply vinyl transfer to garments
- *Learn to shoot photos for social media + marketing

Previously the workshop was a group class format, but going forward, **it will be offered as a private class.**

For testimonials and more information on registering, please visit our website at www.chacc.org/brandstamp.
